Real Business Challenges. Intelligent IT Solutions.

Business Challenges

Disconnected Systems

Data spread across multiple tools and platforms

Lack of Real-Time Insights

Decisions made without accurate, live data

Manual & Inefficient Processes

High operational costs and human errors

Security & Compliance Risks

Growing threats and regulatory pressures

How DigoIT Addresses Them

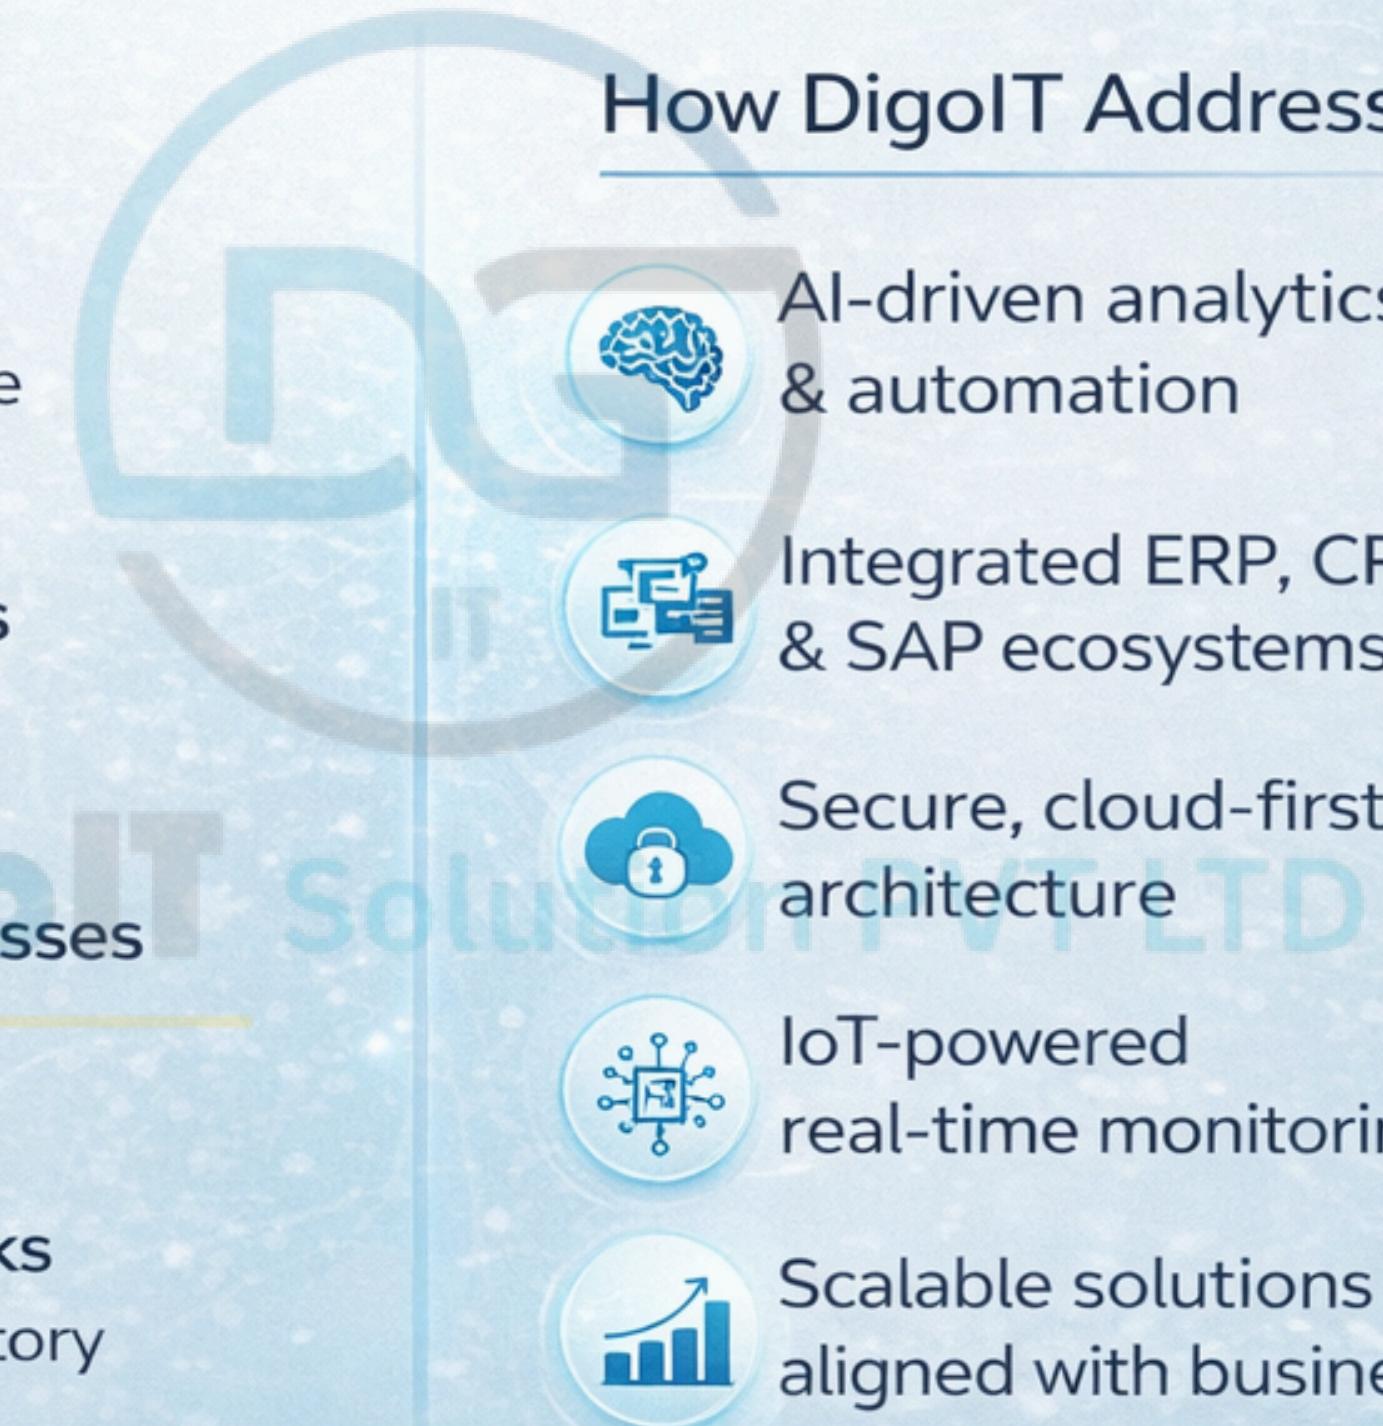

AI-driven analytics & automation

Integrated ERP, CRM & SAP ecosystems

Secure, cloud-first architecture

IoT-powered real-time monitoring

Scalable solutions aligned with business goals

How DigoIT Delivers Measurable Outcomes

digoIT Solution PVT LTD

DigoIT Delivery Framework

Why DigoIT?

- ✓ AI-first approach
- ✓ Vendor-agnostic solutions
- ✓ Security by design
- ✓ Scalable & future-ready architecture

Industries We Serve. Solutions That Deliver.

Manufacturing

- ✓ Smart factory analytics
- ✓ Predictive maintenance (IoT + AI)
- ✓ ERP & SAP optimization

Logistics & Supply Chain

- ✓ Real-time fleet & shipment tracking
- ✓ AI-driven demand forecasting
- ✓ ERP + TMS integration

Healthcare

- ✓ Secure patient data systems
- ✓ Compliance-driven cloud solutions
- ✓ Intelligent dashboards & analytics

BFSI / FinTech

- ✓ Secure, compliant platforms
- ✓ AI-powered risk & fraud analytics
- ✓ Core system modernization

Retail & E-Commerce

- ✓ Customer behavior analytics
- ✓ Inventory & order automation
- ✓ CRM-driven personalization

Enterprises & SMEs

- ✓ End-to-end digital transformation
- ✓ Cloud migration & cybersecurity
- ✓ Custom ERP & CRM solutions

Why Leading Businesses Choose DigoIT

The DigoIT Advantage

AI-First, Not AI-Added

AI embedded across solutions,
not as an add-on

End-to-End Ownership

From strategy to deployment
& optimization

Vendor-Agnostic Approach

Best-fit technology, not forced tools

Security by Design

Built-in cybersecurity & compliance
readiness

Scalable & Future-Ready

Solutions that grow with your business

Business Outcomes Delivered

Operational Efficiency

Reduced manual effort & faster workflows

Data-Driven Decisions

Real-time insights & predictive analytics

Improved Security Posture

Risk mitigation & compliance confidence

Faster Time-to-Value

Quicker implementation with
measurable ROI

Sustainable Growth

Technology aligned with business goals

Our Key Services

ERP Solutions

- ✓ Custom ERP and CRM development
- ✓ Seamless integration with existing systems
- ✓ Advanced analytics and reporting

AI & ML Services

- ✓ Machine learning and AI model development
- ✓ Predictive analytics & automation
- ✓ Natural language processing solutions

IoT Integrations

- ✓ IoT-enabled monitoring and analytics
- ✓ Smart sensors and real-time alerts
- ✓ Automation for smart factories and logistics

SAP Implementation

- ✓ SAP S/4HANA deployment and migration
- ✓ Custom SAP solutions for industry needs
- ✓ Process optimization and automation

Cloud Solutions

- ✓ Cloud infrastructure setup and management
- ✓ Secure, scalable cloud architectures
- ✓ Disaster recovery and data backup

Real-World Use Cases

Logistics

⚠ Problem

No shipment visibility

🔗 Solution

IoT + analytics dashboard

✓ Outcome

Real-time tracking & cost reduction

Manufacturing

⚠ Problem

Equipment downtime

💻 Solution

Predictive maintenance (AI + IoT)

✓ Outcome

Reduced downtime & maintenance cost

Enterprise

⚠ Problem

Disconnected systems

☁️ Solution

Custom ERP + cloud

✓ Outcome

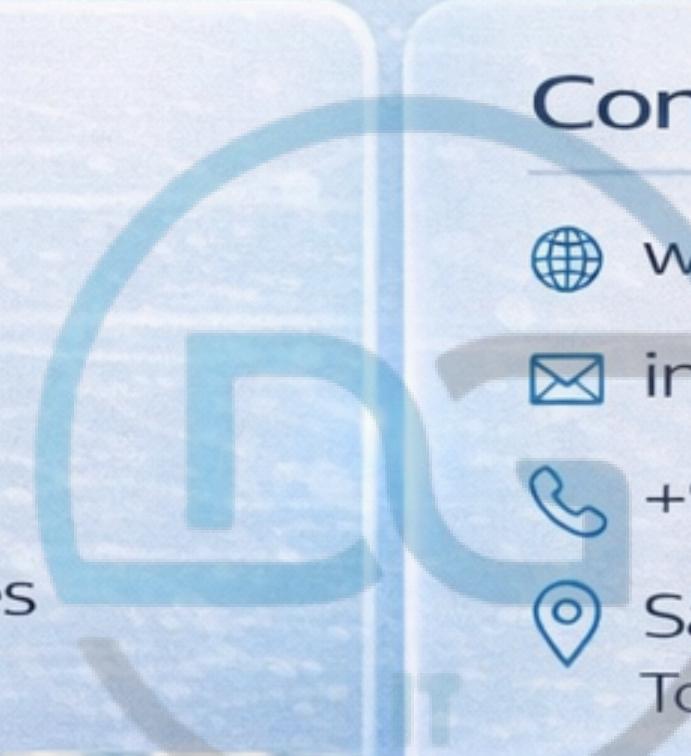

Centralized operations

Let's Build Intelligent Solutions — Together

What Happens Next

- ✓ Discovery discussion to understand your goals
- ✓ High-level solution roadmap
- ✓ Clear scope, timeline & outcomes

Solution PVT LTD

 **Digoit**
Turning Ideas Into Impact

Technology should enable growth, not complexity.

We help you build systems that work today — and scale for tomorrow.
